

ICB-014

[ICB-014-A002: Standardized botanical extract for the treatment of gastric ulcers]

ICB-014 is a hydroalcoholic (1:1 – water- ethanol) extract of flower of Indian medicinal plant. Extract has been standardized using four chemical markers. The extract has shown potent H⁺ pump inhibitory and anti- *H. pylori* activity. The extract was effective on various ulcer models induced in rats. IND for this lead has been filed to AYUSH. Phase I clinical trials are underway.
